Related subject: Lindley

The new proposed boundary cuts right through the middle of Lindley Park estate. I don't see any logical benefit to divide the interests of said estate between two separate wards. I'm concerned this amendment would disconnect residents in the Huddersfield North district from their closest local community of Lindley. The Huddersfield North district seems very broad. It feels as though these proposals have been drawn up based on the topology of a map, rather than taking into consideration the actual community links and relationships that exist, particularly with the local schools. In that respect, I feel children attending the local school who end up residing in a different ward will be at a disadvantage, not having their interests duly represented.
