Related subject: Lindley ward boundary changes

I disagree with the proposed boundary changes. These changes split our estate into two wards, Lindley and Huddersfield North. This does not make any sense as we are physically located within the Lindley area and indeed make use of the facilities there. If this goes ahead we would be in a region that is centred on an area geographically distant from us. I do not believe that Councillors in the new Huddersfield North ward would be all that concerned about an area that is so remote from the ward centre. Would it not make more sense to split the wards along Halifax Road?
