Related subject: Lindley /Golcar boundary changes

I have reviewed the proposed boundary changes which show that half of my estate, including the street I live on (Warton Ave) will be moved into Golcar ward. What on earth possessed the person making this decision to draw a bizarre dog leg off weatherhill road and cut our estate in half. It would be better to move all the estate into the new proposed area or remove the dog leg and continue straight down weather hill road and not bisect the estate. This is absolute madness.
