Related subject: Change my house to Fixby ward from Lindley

I am opposed to this change for myself and the Lindley Park Estate. My reasons are as follows;

1) As we are located in close proximity to Lindley we as residents have been a part of the Lindley community events and have begun joining groups to improve the area (WI Lindley)

By segregating part of the estate and classifying myself as a non Lindley resident you will be disassociated with my village and the work I am doing.

2) I chose to live here to be a resident of Lindley and I do my civic duty to volunteer at the local Lindley school. To class me as Fixby which is unwalkable from my address would feel confusing and segregational.

3) Whilst volunteering and participating in the local area I have communicated with local councillors and would continue to meet with them through events. This would then be pointless, unhelpful and a waste of time as they'd no longer be my representative.

4) My local Councillor is meant to represent me and my local ward. I live in Lindley. My geographical area does not move. My road, estate etc is within minutes of Lindley Village. How would a local councillor for Fixby know my needs? Or help me as my needs would be to do with Lindley!

I am disappointed that my local council doesn't want me to identify as living in my village.
