## Comment text:

We understand it is proposed to move Styvechale Grange from Wainbody to Earlsdon Ward. We have not been consulted about this and do not know of anybody who has. If it had not been for Styvechale Grange Residents' Association we would not know anything about it.

Earlsdon is a large, well-established district of Coventry with which we have nothing in common and we would simply lose our identity. Geographically we are quite a distance from Earlsdon and there is no direct public transport link between Styvechale Grange and Earlsdon. At present we have an established bus route link with Finham (No.9).

We have important ties with Finham through the Parish Council, Residents' Association, schools, library, etc. We also have many of the same issues as Finham which our three councillors are able to tackle collectively and both Finham and Styvechale Grange have always benefited from their strong support.

We appreciate the need to even up electorate numbers across Wards, which we understand is based on projected electorate numbers for 2029. However, it is our opinion that an alternative solution can be found. We have lived on Styvechale Grange for 56 years and would not want to be alienated from Finham. Please do not use the A45 as a dividing line, it is not appropriate.

Please will you consider our concerns.

Yours faithfully
