I am {name} and I live in {ward where you live}.

I fully support the proposals put forward by Coventry City Council and Coventry Labour Party.

I believe that the broad pattern of the wards as proposed are correct and that the proposed amendments within the current consultation response will better represent community identity in Coventry. We welcome that the LGBCE have agreed Coventry should be represented by 54 councillors, the same number as there are now and that Coventry should have 18 wards.

Although I welcome the initial proposals by the LGBCE, I would support some of the minor amendments suggested in the most recent proposals for St,Michael's
