## Comment text:

**Related subject:** Washington Ward

I object to the proposed names changes to the Washington wards and suggest they remain as they are: Washington Central; Washington East; Washington North; Washington South and Washington West.

The proposed new ward names do not easily identify the wards they represent or their geography in Washington. It appears to me to be a name change no good reason and a waste of council time and resources to debate this. I'm sure the council has more pressing matters to discuss. If it isn't broken, don't fix it.

Thanks for your time.
