## Comment text:

I have reviewed the proposed boundary changes for Sunderland - and I strongly object to your proposals for my ward. St Chad's is my ward - I am against these suggested ward changes because they do not reflect the natural, geographic, community link that is evident in the current ward boundary. I feel it will make the ward too large and the responses to the needs of the constituents will be considerably diluted. These suggested areas have nothing in common with one another. Silksworth, Farrington and Lakeside geographically have more in common with one another. Tunstall and Humbledon are neighbouring communities. We request you revert to your previous Tunstall and Humbledon and Farrington and Silksworth Wards. As for my ward Herrington, - I do not agree that Herrington is not a single community. I believe there are strong geographic and community links that bind the Herringtons together. Or a potential ward boundary that includes Houghton with the Herringtons. I strongly request you to revert to the Herrington Ward proposal. It encompasses several arterial routes in and out of Sunderland, a number of churches, schools, green spaces and many successful businesses.

I do hope that you will sympathetically consider my objections before making a decision.
