## Comment text:

Upon receiving the letter in the post today from councillor Paul Edgeworth, we wish to make our opinions known about the plans to move SR34AT and surrounding streets to a different boundary.

We are heavily against this idea, currently the streets are in the High Barnes, Humbledon area which if you ask around are fairly sought after areas currently. Unfortunately the same cannot be said about Thorney Close and Grindon, evidenced by the difference in house prices using statistics from the current market e.g Zoopla and Rightmove.

The repercussions of the above are including, but not limited to, the following issues:

- Devaluing of the properties on these streets as they'll be classed as lower income areas
- Increase in insurance such as car, home, contents insurance due to the area being one of a higher crime rate
- likelihood of an increase in social housing

We would heavily suggest that the above is considered when making a decision, thank you.
