## Comment text:

Dear Local Government Boundary Commission

I totally agree with your proposal to keep the Sandhill Ward of Hastings Hill, Grindon, Thorney Close & Springwell together as one electoral ward as it makes common sense as these estates have their own compact workable boundary flanked by the A19, Chester Road, Springwell Road & Durham Road.

The Ward consists of shared easy to get to, schools, Medical Centre, public transport and shopping facilities etc, plus Barnes Park & green spaces for leisure and dog walking etc with lots of recreational facilities organised by the local communities.

It makes no sense to me why anyone would want to breakup such a thriving and friendly community of people, who have spent years working together to form this well run successful Ward.

I have lived in Hastings Hill for almost 40 years and I feel that any change to the current boundaries would cause a major disruption to the well run Ward as it is now, these are just not my feelings but also from my elderly neighbours who fully support the Local Government Boundary Commissions proposal to keep things as they are at present.

Change for changing sake doesn't always work as it creates unnecessary upheaval and disruption, do we need this in uncertain times !!
