## Comment text:

Good Morning,

We have been informed of a proposal to join areas together ( adding Grindon to Pennywell and South Hylton area )

As members of the Grindon community for over 49 years , I feel this could be deverstating to Grindon.

The current situation is working extremely well , we have always had links with Hastings Hill , Thorney close and Springwell, with joining schools , a good community, nice walk ways through the areas . We also have a clear divide of boundaries with main roads Chester Road / Durham Road/A19.

I feel the current way is perfect, we have the same values as our neighbours. If Grindon was joined with Pennywell and South Hylton, I feel the voice of our strong community would be lost , and Grindon would suffer this decision. Why change something that works ????

We propose to keep Grindon as its currently, joined with Thorney close, Springwell and Hastings Hill and for us to be represented by one set of councillors instead of splitting them up.

Kind regards
