Dear Sir or Madam.

Merging Hastings Hill with Pennywell.

I would like to stress in writing my disagreement with the merging of Hastings Hill with Pennywell.

I agree with the Local Government Bandy Commission to keep things as they are.

The natural boundaries are the A19, Chester Road which is dual carriageway, making interaction between the 2 communities difficult, and Durham Road, the perfect grouping as they share schools, community groups and recreation facilities.

This combination has worked well and created a sense of community within the boundaries it makes sense to keep them to-getter with one set of Councillors.

Interaction between Lemynwell and the current ward is nearly impossible due to the dual carriageway which is only accessible through and underpass where boys hang around and its condition is unpleasant.
