I live in the Sutton ward, and feel that the boundaries as they currently exist are fine, given the number of councilors and people who live within the Sutton electoral boundaries.

There is a new estate of some 300 or so house in the process of being built within the Sutton ward boundaries (Gaw End Lane, Lyme Green), which will add to the numbers making up the Sutton ward population. However, the Sutton ward is made up of mainly rural and semi-rural communities, with councilors (both Cheshire East and Parish) who live in the ward, and understand the pressures and requirements of rural life, and as a result do a good job of representing the ward. Changing the Sutton ward boundaries is not, therefore, in the interests of the communities as covered, and any boundary change may result in parts of the ward being represented by persons unfamiliar with the ward or rural/semi-rural life and all that goes with it.

I disagree with any proposed boundary changes to the Sutton Ward, for the reasons as stated above.
