

# Cheshire East

## Personal Details:

Name: [REDACTED]  
Email: [REDACTED]  
Postcode: [REDACTED]  
Organisation Name: (Member of the public)

## Comment text:

totally illogical. An MP who represents 'us' but in majority sits within another parish area and is expected to represent us within a different council when for example the connectivity of the region in question will only be worsened and that is before considering health care and education. Why not link the leighton population which equal the population shift with this daft idea - that's way no conflict with councils, PC etc.
