## Comment text:

We would like to submit our views relating to the proposed boundary changes in Cheshire East

As a resident of Alston Dumbah Lane in Prestbury we believe the current Cheshire East position ruling is to transfer our property into parish of Macclesfield

This decision was made without consulting the residents affected and doesn't appear to either have been made in a particularly transparent way

Our view is that if it's necessary for the parish boundaries to be reviewed then we would prefer to transfer the whole of Dumbah lane into the parish of Prestbury as this is the closest and most relevant community to us for the following reasons

- We are connected to the Prestbury telephone exchange for telephone and internet connectivity
- Both my children attended school at Prestbury Primary school and have been baptised and attended the Church in the village
- Our closest amenities are in Prestbury and we regular use the village facilities of tennis club, Parks restaurants shops etc.
- The rural nature of Dumbah Lane is more closely associated with the nature of Prestbury Parish rather than the more urban Macclesfield and I

believe

our views would be more effectually represented by Prestbury Parish council.

- Dumbah Lane is effectively a transition point between Prestbury and the Macclesfield suburbs and has greenbelt to the front and the back of the road
- The road itself has a national speed limit which defines it's more rural nature

We would kindly request that the Boundary commission review takes the residents views of Dumbah Lane into account on this decision. Which reflects the desire from local communities to be associated with a community of their choosing.
