Organisation Name: Glasshoughton Infant Academy (Representative of a local organisation)

Comment text:

Related subject: Castleford and Glasshoughton

In light of the reviews held regarding ward organisation, it would be beneficial to the local community for the designation of Polling Stations to also be reviewed. The impact of a school building being used for a Polling Station annually is the cause great disruption to the school day, parents working commitments and childcare arrangements, the quality of education being provided and the attendance of children, alongside the safeguarding procedures that have to be put in place to manage this effectively and safely. There are buildings within the local area to school that could be used with minimal disruption compared to the disruption that is caused to school for one day.
