## Comment text:

**Related subject:** Birdwell

Re the changes to Rockingham ward I can see no sense in the proposal for Birdwell Common to remain in the ward and move the rest of the area into the Worsborough ward. Birdwell Common is an integral part of Birdwell, it's just a street in Birdwell and deserves to be considered along with the rest of Birdwell when decisions are made in the area. Further the decision to move Birdwell into the Worsborough ward is flawed. We have far more in common with Hoyland Common and Hoyland eg the road layouts and the epidemic of industrial building. This affects us on a day to day basis directly. We run the risk of being overlooked in decisions about our geographical area if we are in the Worsborough ward.
