Related subject: Proposed Rockingham boundary change

Hoyland Common. Birdwell and Worsbrough Village should remain in Rockingham Ward as at present and not be split as proposed. Hoyland Common,

Birdwell and Worsbrough Village particularly have a physically close knit community separated geographically by green belt land (hopefully we are not losing any more of this precious land) with green fields, very steep hills, water and a river valley and woodland. It has a distinct nature of its own which is special to those of us who live here and have raised our families here for several generations now. It's very important and should not be changed in a very uncertain world of change. This is of fundamental importance.

It is necessary to keep some certainty in life we are familiar with. It's comforting in a way that we need.

We are not Worsbrough Bridge or Worsbrough Common. Or Worsbrough Dale. Please leave boundaries as they are. It's important to a whole Community.

Why change what works for those who live and work here.
