Related subject: The Wibsey Constituency boundary

I would like to see the entire length of Reevy Avenue included in the Wibsey Constituency. Currently the boundary covers half of this road, then diverts along Revy road before going back down Wibsey Park Avenue. I believe it would make sense for the boundary to run the full length of Reevy Avenue to join Wibsey Park Avenue at the lower end.

As someone who lives in the area, and spends most of my time in Wibsey Village, using the local shops, library and with my children attending Wibsey School, I would like to be able to vote within the Wibsey constituency and engage with those elected in Wibsey. Currently the boundary places me in Royds by just a few metres and this is incredibly frustrating.
