Related subject: Cottingley

I object to the proposal of moving Cottingley BINGLEY, into the Shipley ward for local elections. Cottingley is part of Bingley, not Shipley - there is a natural open barrier between the 2 wards. No councillor for Shipley would have a clue on what affects the people of Cottingley, what affects us is what happens in Bingley. Shipley (for a lot of people in Cottingley) is somewhere we don't go, have no need to. What happens in Shipley does not affect here so why should we be lumped with them? Shipley and Bingley are 2 distinct towns, if we wanted to be part of Shipley then surely we would live there. Our identity is as Bingley residents, not Shipley residents so our political identity should be part of Bingley not a town 3 miles away which has nothing to do with Bingley.
