**Organisation Name:** (Member of the public)

## Comment text:

**Related subject:** Bingley

The proposal splits the historic town of Bingley into two wards. I would live in Bingley East, but would have no representation on matters concerning parts of the town that are important to me in my daily life, e.g. town centre parking, town centre development generally, and very importantly for the quality of my daily life, Myrtle Park. Socially, and economically, Bingley is one entity, and this should remain the case in its political representation.
