**Organisation Name:** (Member of the public)

## Comment text:

**Related subject:** Bingley East

The revised boundary review recommendations, which include the entirety of the village of Eldwick within the Bingley East ward, are strongly supported. Eldwick relies on Bingley for the vast majority of its services and facilities, including transport, shops, libraries, schools, health and many others, and the revised proposals enable all of Eldwick's population to have their say in how this area should develop. Any proposal to link part of Eldwick to the Baildon ward is opposed. Eldwick is geographically separate from Baildon, there are no public transport links and there are few public services in Baildon which are used by residents in Eldwick. Therefore, there is no logic in incorporating any part of Eldwick into the Baildon ward.
