Comment text:

Related subject: Baildon Ward

I strongly object to Eldwick being placed in the new Baildon Ward. The communities are not natural partners and are divided by a Moor which has no public transport links between the two communities. Residents of Eldwick identify themselves as being part of Bingley. Their children attend Bingley schools. They are out of the catchment area for all Baildon Primary schools. They do their shopping in Bingley not Baildon. Having worked for 24 years in Eldwick whilst living in Baildon I have a good understanding of how separate the communities are. Joining the two together is likely to cause a lot of resentment within the Eldwick community and is likely to damage relationships within the Shipley constituency.
