Related subject: Bingley East/West

As a resident of what would be the new Bingley East ward, I would like to object to these plans to split Bingley along the rail line in this way. Despite living two minutes walk from the town centre I and a large number of Bingley residents would, under these plans, no longer have a voice on decisions made about the main part of the town. Its completely illogical to split the town in this way and I strongly suggest finding a more sensible compromise, or indeed stop wasting time and money on pointless exercises such as this.
