Related subject: Eldwick - disagree boundary changes

I object to the boundary changes in Eldwick and Gilstead. I live in Eldwick and object to the fact that I will have no say or representation in matters affecting bingley - Bingley has been my home for 45 years. My village is not and never will be part of Baildon - it's makes no sense to make these changes. I have been involved in community issues and represent changes in the town of Bingley - I have no links to Baildon. Baildon is separated by a moor road and would not coherently fit Eldwick or any parts of Bingley into that community- a boundary change would rip the heart out of Bingley and split communities apart - at a time when communities needs to come together and look after each other - keep politics out of this and keep Eldwick Gilstead priesthorpe etc as one community - scrap the boundary changes
