Response to the Boundary Review for Bingley and Bingley Rural

I must strongly object to the proposed splitting up and movement of villages within this geographical area, all of which have strong historical links and identity with Bingley. To this end Bingley Council was set up to give voice to Bingley and Bingley Rural Villages.

My particular objection is in respect with the proposed splitting of Cottingley Village, with the southern part moving into Shipley East which bears no logic whatsoever. Cottingley is and always has been a part of Bingley and within the village has set up its own Community Centre, which if split up would lose its identity and purpose.

Cottingley has no attachment with Shipley geographically or community wise. It has its own Councillors for the whole village who live within the area and understand its nature.

There does not appear to be any logic in fracturing the village and I would suggest that if there is a need for movement this can be achieved without dissecting Villages and their Communities.
