Related subject: The boundary change splitting the village of Eldwick between Bingley & Baildon

I do not understand why the proposed boundary change will divide the village of Eldwick between Bingley Town Council - which it is currently under - and Baildon Town Council which is miles away across moorland. I can only assume it has been decided by some faceless bureaucrat who has never visited Eldwick, Bingley or Baildon. The services that are currently provided by Bingley Council would Baildon Council provide them, I doubt it, as we are miles away. I would hope that these proposed boundary changes will be amended so that as a village we remain part of Bingley. Thank you.
