Comment text:

As a tax paying resident of the above ward I strongly oppose the proposed changes to the ward. These changes will affect most people currently living in what would become the Shipley ward with councillors from that ward having little or no interest in the area. The current Bingley Rural ward works very well encompassing all the villages around Bingley and serves the residents needs very well. The proposal splits the village of Cottingley into two separate wards which will only result in conflict of services within the different parts of the village. I therefore suggest that the proposal is scrapped before wasting any more time, effort and money which could be spent on more worthwhile projects.

Sincerely

[REDACTED]
