## Comment text:

There are too many layers of bureaucracy across the country now, This is costing the tax payer billions of pounds in wasted tax. for eample

Parish Council with several councillors  
District council with yet more but different councillors  
Regional Mayors  
MPs and Parliament

NONE of these work together, instead they blame each other and waste so much TAX PAYERS money while we see services deteriorate beyond belief.

You/Parliament need to review and cut some of these levels of ineffective and expense people not add to them.

I am aware that these comments will be totally ignored!
