Related subject: South East MK, Walton Parish

Walton Community Council believe that the Parish of Walton, which currently has over 5k houses and 8k electors, should sit in one single City Council Ward. This is under the criteria of effective and convenient local government and also for electoral equality. The current ward boundaries split our parish along the middle, meaning we have 6 Ward Councillors, with the south of our parish in a Ward with very different demographics to the south.
