Related subject: The Homesteads

My wife and I have lived in the Homesteads for over 80 years. My wife was born here as were her brother and cousins.

To have our area become part of a greater Stanford le Hope would be a bitter blow to us. We would definitely have people from outside of our area representing us. This will lead to a lack of knowledge of the Homesteads and an area which has survived most of the housing blight and will be completely destroyed as a consequence.

We love our Homesteads and want it to remain the same.

Regards

Peter and Sylvia Banks
