Related subject: The proposed new Stanford-le-Hope North ward

I am against this plan of boundary and name ward change. The main reason behind my objection is that it will lesson the impact of ward councillors who work for us here on the Homesteads if the number of councillors are reduced or we have someone who supposedly wants to help this ward with no knowledge of my area. The Homesteads name is also well known for the roads and houses, the boundary of the secondary schools and a community feel. This is again another proposal that does not put the community and residents first, I see my local councillors on the Homesteads a lot doing all they can to make our ward a nicer place please let them continue to do so.
