## Comment text:

**Related subject:** Wolverton

I think Wolverton ward should be changed so it can make it a closely fought contest, our ward has been Labour for many years & they can put a cat up for election & the cat would win. You know you it's not worth voting for anyone else or voting at all as our vote would not make a difference. Only this last election a candidate who was warn in a magistrates court for antisemitism. The Clr's know they have such a safe seat they don't really have to do much work in the ward, we never even knew who all the candidates were for this last election. So a change of wards would only benefit the area. So I am in favour of changes for the better
