Related subject: Proposal to move Mirfield / Dewsbury West Boundaries

Good Evening,
I am writing to confirm mine, & the local residents in the area I live my opposition to the proposal to move the boundaries locally with regards to future voting.

It is, quite simply a disgrace that the votes of an estate, that is currently within the boundaries of Mirfield is being proposed to be voting for councillors of which this part of the town is and will not be part of. You simply cannot change geography because it suits certain individuals in a quest for more votes.

There is no significant reason for this proposal, and the fact is it simply means Mirfield residents, which we are, will no longer have a voice for the town we live in, our children are growing up in, and for the place we visit the town, our town regularly.
Why should we, residents of Mirfield and will remain so, now have to vote for an area in which we simply do not live in, or wish to be involved in.

Put bluntly this is yet another disgraceful idea from a council who quite clearly have more sense new than money and continue to not put the people of the area first.

Kind Regards
