## Comment text:

**Related subject:** Acklam

I have received notification for the proposal of the new boundary changes. The proposal in question is for my ward in Acklam Middlesbrough, which you are suggesting to change to Stainton Councillors. This will directly affect my property/area, as I am situated opposite the proposed boundary. However, I am concerned that I will find it challenging to have any meaningful input into the changes, which seems unfair and not in line with a transparent and inclusive decision-making process.

The land opposite is a Meadow, which we have had to fight long and hard for, so no new houses will be placed there. Due to the wildlife and the scenery, the proposal for this boundary is not acceptable; as I have stated, it affects not just mine but the surrounding areas, which include the green spaces, village green and Woodland in danger, there are many activities which run along the meadow, for families to enjoy and individuals walking pets the wildlife will be affected by the changes which will include the habitation for them. The proposal for the ward boundary will run from Gayton Sands along the footpaths at Dornoch Sands, Luce Sands, Curthwaite, Stotfold Walk, and Newfield Crescent instead of Stanisby Beck. This proposal will be passed to the Stainton councillors who do not live within the Acklam Area,

As stated above, I have many concerns about this new proposal, so I would like to recommend that it not be Given the Go-Ahead.
