Related subject: Mandale Meadow

I am concerned it's proposed that Mandale Meadow is included in the same area as a Staunton rather than in Whinneybanks/Ayresome ward.

I live in Farley Drive, we have much more connection with Whinneybanks and Ayresome because we have schools and shops and roads in common. We have the same concern with the traffic which accessed the A19 at Mandale roundabout, we have the same environmental hazards from the noise and air pollution of the A19. We suffer the same when daily traffic congestion makes walking and driving difficult.

The Staunton population is miles away, they will have less interest in our specific problems. They do not use our Mandale Meadow for recreation like we do. They do not fear the loss of what we see, hear, feel there every day, indeed they may welcome an extra road across it (rat run?) as an alternative to the A19 every time there's a hold up on the dual carriageway.

The adverse effects on our physical and mental health and the damage to our environment will not be of concern to those living at a distance. We need local councillors who live locally, have connection with local people and their concerns to properly represent us.
