## Comment text:

**Related subject:** Brookfield & Trimdon Ward

I am writing to object to proposals to change the boundaries between the Trimdon & Stainton wards.

I have lived as a child growing up and now a home owner in the Trimdon Ward.

This land directly links to homes and the families that live in those homes in the trimdon ward. It provides a safe space for children to play, access to nature, physical activity, a safe space for the elderly, family activities and for wildlife and animals.

There are roads and even a motorway in between these two wards.

To propose to take away the limited green space this ward already has, and to gift it to another ward and councillors to make decisions about this area is disappointing!

To take away this space from the trimdon ward, is to take away the voices of local residents who contribute to and know and love the area, and have its best interest at heart!

Decision making about the future of this space should not be taken away from residents and councillors of the trimdon ward.
