Comment text:

Dear Sir or Madam,

I hope to lend your empathetic ear over a proposal to change a boundary limit which currently falls within the ward boundary where my home is, in Trimdon, Acklam. If successful, the proposal will result in handing a section of meadow and green space which is extremely popular with walkers and children over to the Stainton ward, which has absolutely no connection on a geographical or personal/sentimental level. The proposal to hand over the green space to a ward who couldn't care less what becomes of the land is clearly a strategic one, development plans which have been knocked back in the past through appeals and complaints will now meet no resistance.

I'm very fond of this area, my home looks onto the green space and I hoped that my own sprog would be able to play there when she gets to an age and this is the biggest driver for my objection. I'm also driven by the fact that the play is so blatantly under-handed and deceitful. Over the past 4-5 years that I remember, numerous applications to develop the land have been met with resistance by the people of Acklam, specifically Trimdon ward and what better way to eliminate the problem than try to use the Boundary Commission to do their dirty work. Given the continuous and unceasing efforts being made by some individuals within Middlesbrough Council and developers to get their wish, one might begin to consider what is driving their relentless motivation to make it so.

In short, I'm fighting for a very charming strip of green land that a LOT of people are very fond of and will upset to see disappear, that a number outsiders are itching to take away for nothing but a bit of cash.

Kind regards,
