## Comment text:

The proposed boundary changes to The trimdon Ward and Stainton ward are quite frankly unacceptable. You have proposed to shrink the Trimdon ward by removing a large housing estate ( which is due to get more houses built) and thrown it together with a small village that has massive building projects currently underway. This means the new Stainton ward and parish is more than doubling in size.

To add to this the Stainsby hall development is separated from this new proposed ward by a busy dual carriage way which forms a natural boundary between the two areas. There are no paths linking the two areas together!

Stainsby Hall park either needs to be kept as part of the current Trimdon ward or it should be made into its own ward in preparation for the proposed further expansion.
