Comment text:

When I first moved to Middlesbrough my area, Marton Manor, was part of a Marton Ward, but soon changed to Ladgate. During this time I feel we have had good representation from elected members . I can understand the reasoning behind the proposed changes, but I am concerned after reading comments attributed to a Marton - based Councillor that the residents of Marton Manor may be considered less favourably than those living south of A174.

Whatever the outcome we need reassurance that the residents of Marton Manor will continue to be fairly and adequately represented following any change.
