Review Officer

I can see no real reason ironically for the removal of Mandale meadow , foxes wood and newfield green being removed from the ward it falls under currently . This smnenity land has been used and loved by the community and has an active community group which cares for it . Placing this land under the Stainton ward seems illogical considering that they are not linked to it and have no emotional connection to it . The people who overlook the area would then have no say in the future or care of the area that they use on a daily basis.

Kind regards

[REDACTED]
