Wood Park Community Group was formed almost 10 years ago to oversee the installation and upkeep of the local community play park in the area.

Since then the group has evolved, working with other community groups, such as Freshney Forward.

They meet on a monthly basis with ward councillors and the local PCSOs to ensure the ward is the best it can be, with low crime rates and safe streets as well as fundraising for causes across the ward.

We have great community links with the local schools in the ward and the local pub which allows the group to use the function room, free of charge for monthly meetings and has supported the group with fundraising in the past.

The ward has a natural flow with the river Freshney separating it from the rest of the town and all parts of the ward being in walking distance of each other.

It makes no sense to split the ward, causing a divide to long standing working relationships in the community.
