Stallingborough, should remain in the Immingham Ward and not be pulled into the Wolds. The impact of all the South bank industries have on Stallingborough and Immingham is far more important to have Immingham and Stallingborough aligned with actions and responses. Things happening in Immingham Ward industries have far more affect on the 1000+ residents of Stallingborough, than the Wolds ward villages. Adding Waltham into the Wolds ward would seem a better fit even for location wise.
