Comment text:

I do not understand the reason for reducing the number of wards . There has been a lot of house building and this is set to increase so I do not think we should be reducing the number of wards.

The areas of the East March and West March are areas that have long had their own identity within the town and I do not think they should be combined. Location wise they are not close .

Similarly the Freshney ward has its own identity and I understand there has been a proposal for some councillors to remove the Freshney ward. I grew up on the Freshney ward and again I think it has its own community .
