Related subject: Eliminating Freshney Ward

Let me see, where to start? Oh yes! This decision is being made solely on political grounds rather than for the benefit of the residents and areas it affects. Local level councillors concerned with losing or not regaining seats in the next election. A community group has worked hard for 17 years integrating all residents on the ward, fundraising for various very local causes. You go ahead with this this decision and all those years and all the hard work will be for nothing. This is the wrong decision and I hope the boundary commission see through the party politics.
