The village of Great Coates is now on a high, we have a Village Council and Clerk that go the extra mile and 3 excellent Independent Councillors. It was only a short while ago that the then Village Council chose to ignore the residents they were supposed to represent over a village hall. NELC arranged a referendum and 82% of residents did not want a new hall; they were happy with our unique Village Reading Rooms. Sadly their wishes were ignored and NELC planning Dept gave permission for the new hall to be built. It cost over £300,000 and is made of plywood. The acoustics are terrible and lots of residents of a certain age are unable to hear what's going on inside. After a short time the plywood leaked it was then the council went to the builder only to find he had only given it a 1 year guarantee!!! Thank you NELC!!

After about 4 years the village managed to get its War Memorial back. Damaged !! It was on the village Reading Rooms that the majority of residents wanted to keep. Thank You NELC!!

We have a very nice Village Nursery where the children get involved with many events in the village. NELC wanted to close it using untruths as a reason. Fortunately the truth came out. Thank you NELC. Residents complained to NELC about speeding motorists driving through the village. NELC looked at the problem then made it worse by widening the road and removing a pedestrian island. Thank you NELC !!! Now in the "Wisdom" they want to change the boundaries and rid the Ward of its 3 excellent Councillors, just when there is some pride coming back into the village, we now have Councillors that listen to residents and a Gold Winning in Bloom Group. And what does NELC want to do? Get rid of it. Thanks again for NOTHING NELC [REDACTED]
