**Related subject:** Freshney ward

I'm appalled at the cavalier attitude of N. E. Lincs council and the calibre of their decision making capabilities, re the boundary changes proposed for Freshney, Willows and Great Coates.

After hearing a councillor give his opinions on why these 3 wards should be changed, as appised to thee wards in the council area, I saw no logic, and no viable reasoning behind his comments. I would like to have heard a full and researched explanation why he chose these 3 wards to change, rather than the babbled explanation given, based on what? A feeling? The fact that they only came to being in 2003? Geographic non alignment? Poppy cock! All 3 areas are close knit communities that ALL use each other's resources! There is a VERY strong sense of community, care, and worry over lots of issues this current council are not bothering to address. The failure of council to come up with actual factual reasons WHY they have chosen these 3 wards, leads me to believe there is a hidden agenda.

I am so tired of politics getting in the way of common sense, and being used before the wishes of the communities they represent.
