## Comment text:

**Related subject:** Boundry changes and loss of council wards

Absolute jerrymander of the boundries for Freshney and Yarborough. These wards are very defined of community and certainly belong as logically as ANY other boubdry in the council region. To remove and merge is absolutely politically motivated. Seriously challenge this. How can it be the majority of Independant councillors represent the two wards under threat of removal and merger? Seriously? The odds of that being a coincedenace is very very low
