## Comment text:

**Related subject:** Redrawing of ward boundaries

Interesting that the Freshney and Yarborough Wards both have independent councillors who persist in asking uncomfortable questions of the council. This is a blatant attempt to get rid of the independent councillors who are more proactive and have done more for our wards than any other councillors that I can remember. We, the people of Freshney and Yarborough wards voted for these independent councillors because we are tired of the internal machinations of the council and because we believe in their views on how ward and council matters should be handled. They are doing an excellent job, and if you eliminate either or both of these wards it will only serve to confirm to local residents that the council are sleazy and corrupt.
