Related subject: Freshney ward

I have lived in the Willows Estate on Freshney Ward for over 40 years . Willows , Wybers ,Great Coates and Aylsbey estate are linked closely together . Friends and family often move in the area but stay within the Freshney ward.
Children from willows and wybers both go to Whitgift School , I see lots of children pass my house on the Willows on their way back home to the Wybers .
I view my church as St Nicholas which is in Great Coates area .
I feel really saddened to hear a Cll trying to create divide by saying people from the Wybers don't want to go to the post office on the Willows . I have to say I feel this is politically motivated , as for the first time I feel I have Cllrs that represent our ward and are making a positive difference .
I grew up on the West Marsh and it it not the same as it was. I don't feel I have any connection to that area . In fact there isn't even a bus route that links to two areas . I can not see what community ties there are between the willows area and that of the west Marsh.
I have to say I feel the suggestion from NELC is politically motivated and I feel deeply let down by them .
